

The South of England Classic Motorcycle Show & Bikejumble
Sunday 27th October 2019

Celebrating 70 Years of The sprung Royal Enfield Bullet with Special Guests
At The South of England Showground, Ardingly, West Sussex RH17 6TL

We're celebrating 70 Years of The Royal Enfield Bullet at the South of England Classic Motorcycle Show on Sunday 27th October. Amongst the oldest motorcycle companies in the world, Royal Enfield has a long and proud history of building resilient and enduring motorcycles and the Bullet is the most enduring of them all.

Meet Gordon May and his 1953 Royal Enfield 500cc Bullet that took him overland from Manchester back to the Enfield factory in India. To cope with the journey, the bike was fitted with indicators and crash bars and a 700cc Meteor front brake while the engine had a Hitchcock performance crank and primary belt-drive fitted. It's usually on display on the National Motorcycle Museum in Birmingham. Gordon is famed for using authentic classic motorcycles in his solo adventures and is the author of many adventure books, visit www.overlandtoindia.co.uk for more details. Gordon has just returned from travelling solo from Nordkapp at the far tip of Norway to Cape Town in South Africa, this time by 1952 Royal Enfield 500cc twin.

Meet Jacqui Furneaux, who spent seven years aboard her 500cc Enfield Bullet travelling from India to Bristol via 20 countries, including Australasia and America. Jacqui will be travelling to us on her trusty Enfield, which is her only transport. She's a very inspiring speaker, and we're looking forward to her talk and presentation in the Stockman's Hall. www.jacquifurneaux.com

Local Enfield dealers [John W Groombridge Motorcycles](#) will be bringing their latest range of new Royal Enfield bikes, with the swing-arm Bullet still in production after 70 years. Buy a new Bullet at the show, the new models feature an electric start and modern EFI engines.

Ex-works ISDT rider Johnny Giles will be there. At 90, he's still in the workshop and his current project is a moto-cross special with a Triumph bottom half, with a Norton crank and a Norton Electra top-half! It drives through a Quaife three-speed gearbox, although he will change that for a Norton four-speed eventually. Johnny will join us with a selection of his fascinating specials he has built for scrambles. https://issuu.com/magazineproduction/docs/seb_magazine_issue_28_ezine

AMC aficionados will have an opportunity to view an extraordinary collection of rare or even unique Norton and AMC Prototype & Experimental Designs. On display will be examples of motorcycles that were designed for post-war production that never happened. Major components of each machine were manufactured and tested; some were even completed as road bikes but soon after, all were sent off for scrap.

The display stand will include one of the ultra rare Jack Moore Norton 500cc Twin Cylinder designs which was due to go into production, at Bracebridge, in 1948 but was shelved due to the arrival of Bert Hopwood and his Dominator engine design. Here is the complete list of AMC / Norton specials, to be on show together with the engine and gearbox components of Norton's unique shaft-drive twin prototype.
